1. About dashboard

1.1 Purpose of dashboard

Purpose

1 Data Collection & Integrated Monitoring

The dashboard uses **product specification data from PIM** together with **crawling data from B2B LG.com pages** to support integrated content quality monitoring.

2 AX Agent-Assisted Quality Improvement

The AX Agent provides **automated monitoring reports**, **in-depth analysis**, and **improvement guidance** based on monitoring data. **Jira and email integration** supports issue follow-up and progress tracking.

3 Productivity Through Task Automation

The dashboard automates **crawling-based data collection**, **quality monitoring**, **score calculation**, and **reporting**, **reducing repetitive manual work**.

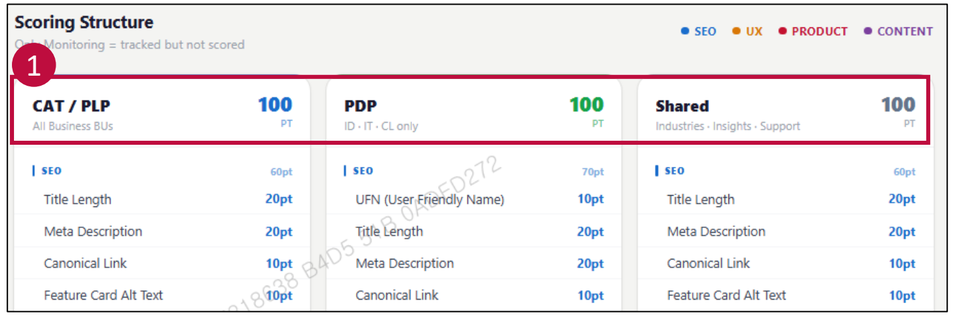

4 Improved Content Quality & Customer Satisfaction

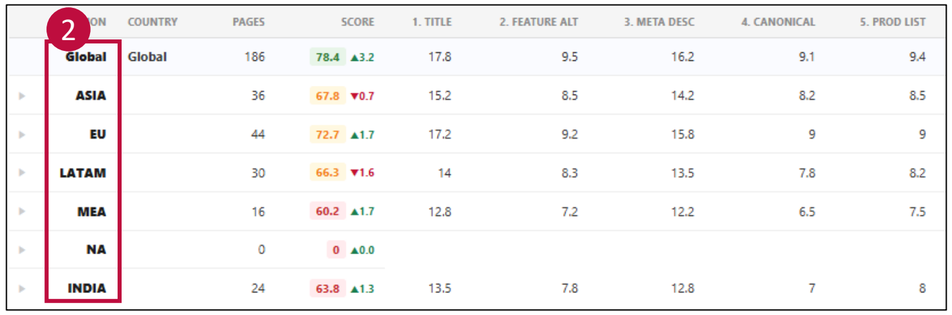

Standardized monitoring criteria improve **product information accuracy** and **content completeness**. Improved site quality supports **higher customer satisfaction**.

2. Dashboard Usage Guide

2.2 Components by Page > WORKSPACE > AX Agent

Dashboard Screen

Feature Guide

Use the AX Agent to check monitoring status, find improvement guides, or get help with dashboard usage.

1. **Question Input**
   Type a question or select a suggested question. Press Enter or click the arrow button to send your question.

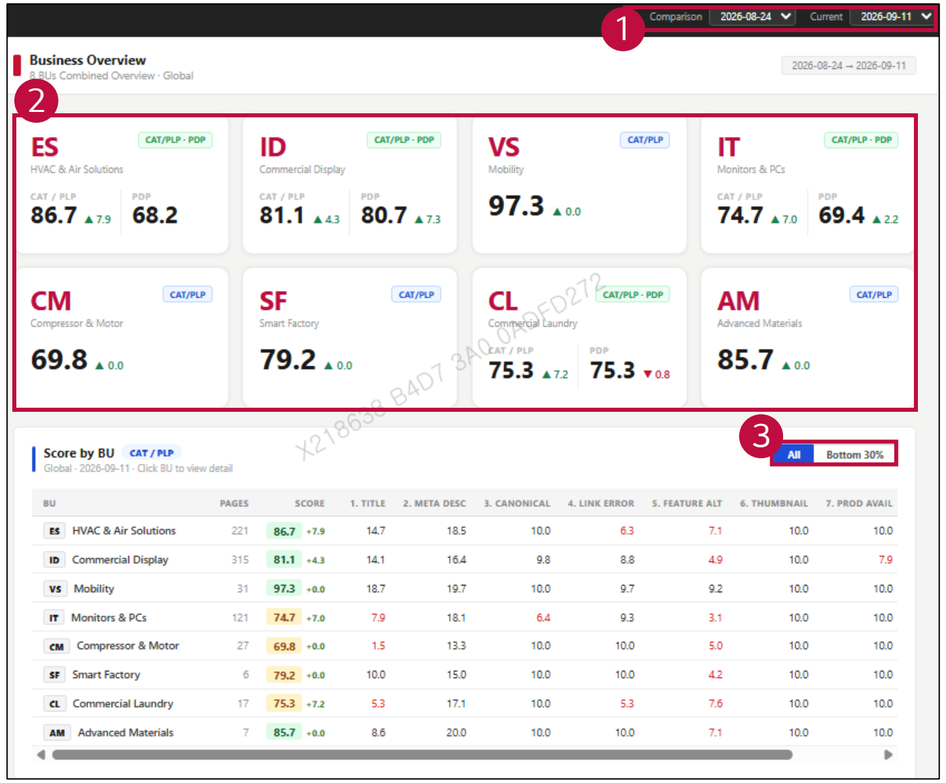

2. **Category Selection**
   Select Monitoring for status and Jira tickets, How to Fix for improvement guides, or FAQ for dashboard usage and policies.

3. **Suggested Questions**
   View frequently used questions for your department.

2. Dashboard Usage Guide

2.2 Components by Page > MONITORING RESULTS > Business

Dashboard Screen

Feature Guide

View monitoring scores across business units. Click a business unit card to view its country results.

1. **Date Comparison**
   Select the Comparison and Current dates to compare scores from the two selected dates.

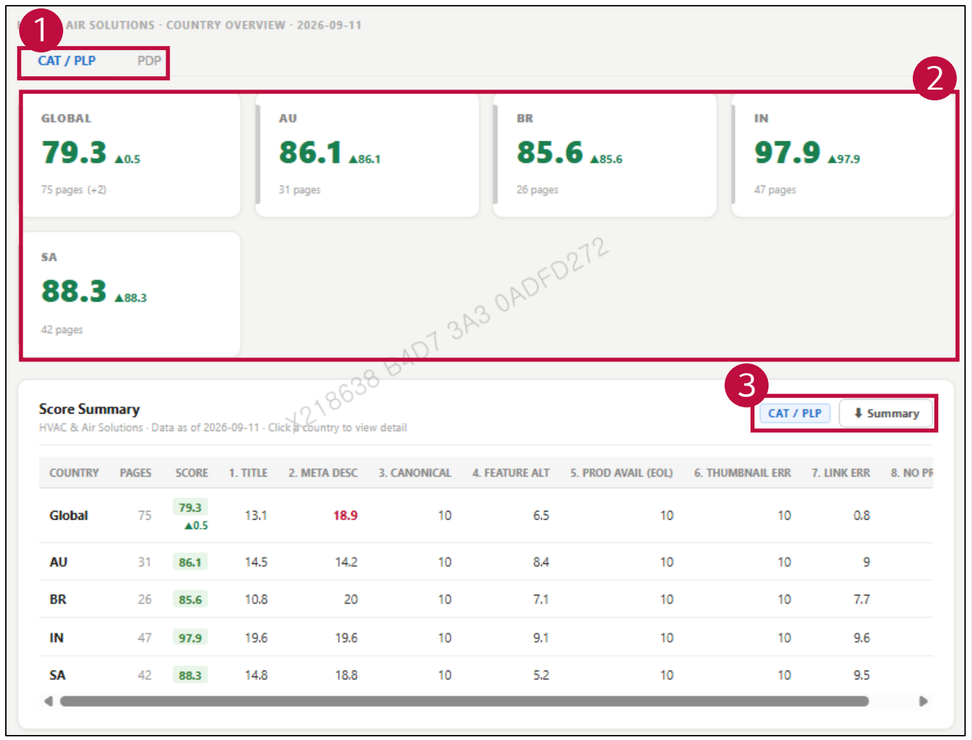

2. **Business Unit Scores**
   Check the CAT/PLP and PDP scores and their changes. Click a business unit card to view its country overview.

3. **Score Filter**
   Select All to show every business unit. Select Bottom 30% to focus on the business units with the lowest scores.

2. Dashboard Usage Guide

2.2 Components by Page > MONITORING RESULTS > Business > Business Unit

Dashboard Screen

Feature Guide

Click a business unit card to view this screen. Compare country scores and monitored page counts for the selected business unit.

1 Page Type

Select CAT/PLP or PDP to view the results for that page type.

2 Country Results

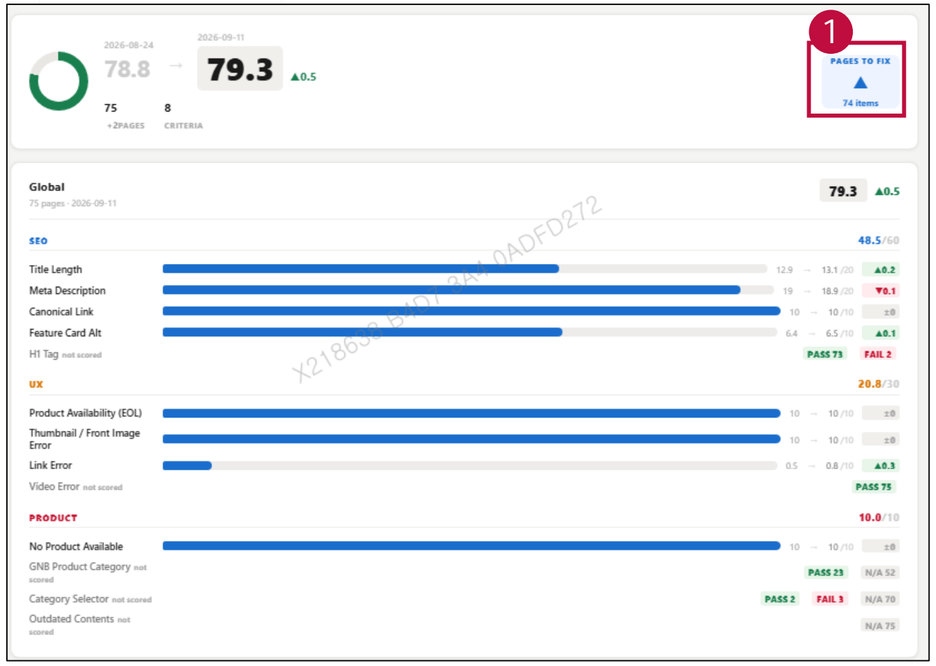

Check each country's score and change. Click a country card or its name in the table to view the detailed results.

3 Summary Download

Check the active page type beside the Summary button. Click Summary to download the country score summary.

2. Dashboard Usage Guide

Dashboard Screen

Feature Guide

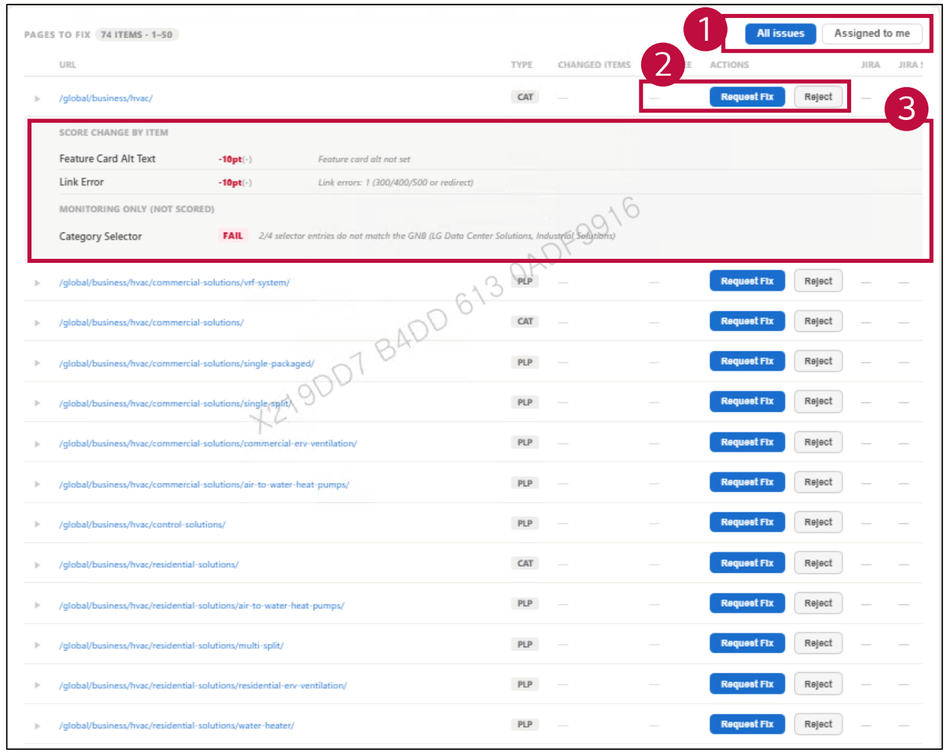

Click a country card to view this screen. Check the selected country's total score and item results. Compare the current and previous scores to identify changes.

1. **Pages to Fix**
   Click Pages to Fix to show or hide the pages that need attention.

2. Dashboard Usage Guide

2.2 Components by Page > MONITORING RESULTS > Business > Business Unit

Dashboard Screen

Feature Guide

Click Pages to Fix and scroll down to view this screen. Review pages that need attention and submit a fix request or a rejection for review.

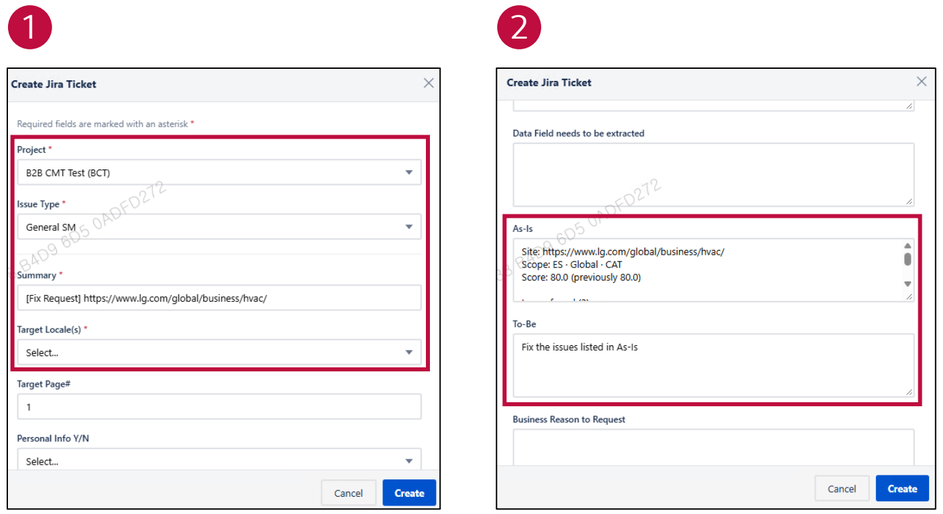

1. **All Issues/Assigned to me**
   Select All issues to view the full list. Select Assigned to me to show the issues assigned to your account.

2. **Request Fix or Reject**
   Click Request Fix to open the Jira ticket form. Click Reject to type a reason and submit the issue for rejection review.

3. **Page Details**
   Click the arrow button to show the page's item results and score changes. Click it again to hide the details.

2. Dashboard Usage Guide

Dashboard Screen

Feature Guide

Jira Ticket Creation Guide

Click Request Fix to open the Jira ticket creation form.

1 Project, Issue Type, Summary, Target Locale(s)

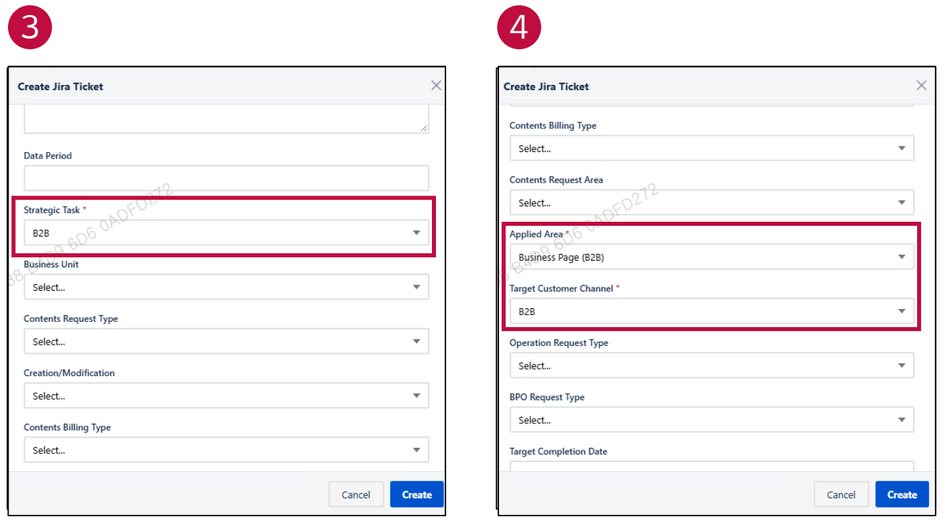

Select the Project, Issue Type, and Target Locale(s). In Summary, briefly describe the request and include the URL of the page to be corrected.

2 As-Is & To-Be

As-Is: Type the page URL, monitoring score, and a brief description of the issue.
To-Be: Type the correct value or content that should replace the current version.

2. Dashboard Usage Guide

Dashboard Screen

Feature Guide

Jira Ticket Creation Guide

Click Request Fix to open the Jira ticket creation form.

3 Strategic Task

Set Strategic Task to B2B and select the relevant Business Unit.

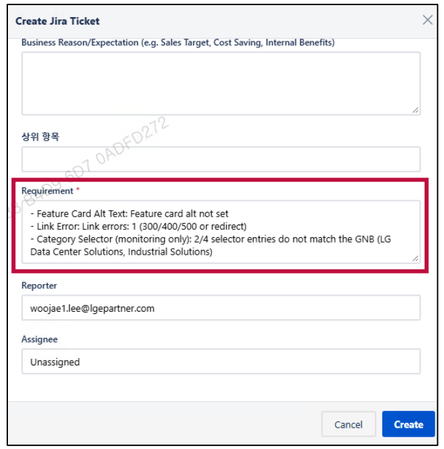

4 Applied Area & Target Customer Channel

Select Business Page (B2B) for Applied Area and B2B for Target Customer Channel.

2. Dashboard Usage Guide

Feature Guide

Click Content Upload on the Insights page to view this screen.

1 Content Upload

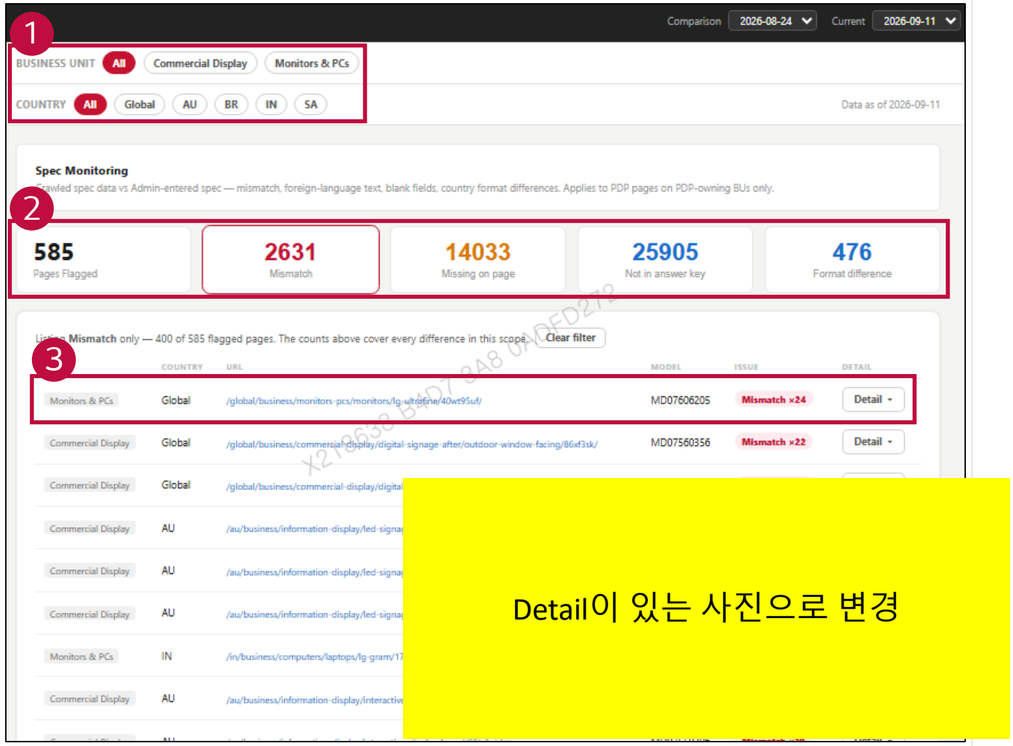

Check monthly upload counts by country and content type to find months with no uploads.

At least three uploads per month are recommended.

2. Dashboard Usage Guide

2.2 Components by Page > MONITORING RESULTS > Spec Monitoring

Dashboard Screen

Detail이 있는 사진으로 변경

Feature Guide

Compare product specifications collected from LG.com with the reference specifications and check the differences by page.

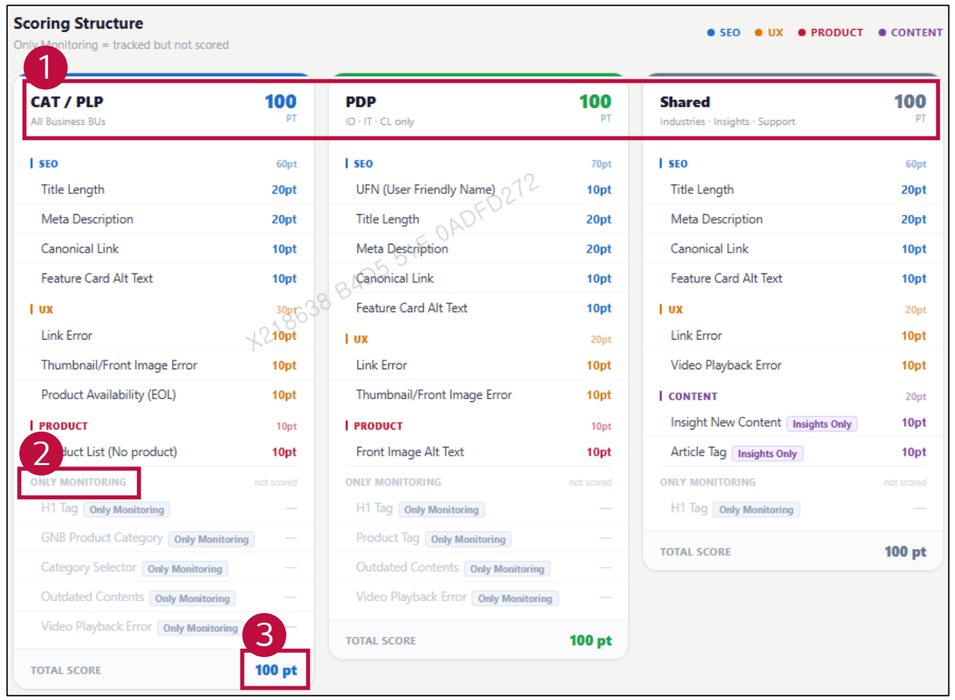

1. **Business Unit and Country**
   Select a business unit and country to filter the results. Select All to view all available results.

2. **Issue Filter**
   Check the flagged page count and differences by issue type. Select an issue card to filter the list. Click “Clear filter” to reset it.

3. **Page Details**
   Find the page or model in the list and click Detail to compare the reference specification values with those collected from LG.com.

2. Dashboard Usage Guide

Dashboard Screen

Feature Guide

Check the monitoring items and points for CAT/PLP, PDP, and Shared in this page.

1 Page Type

Find the column for the page type you want to check, such as CAT/PLP, PDP, or a shared area.

2 Only Monitoring

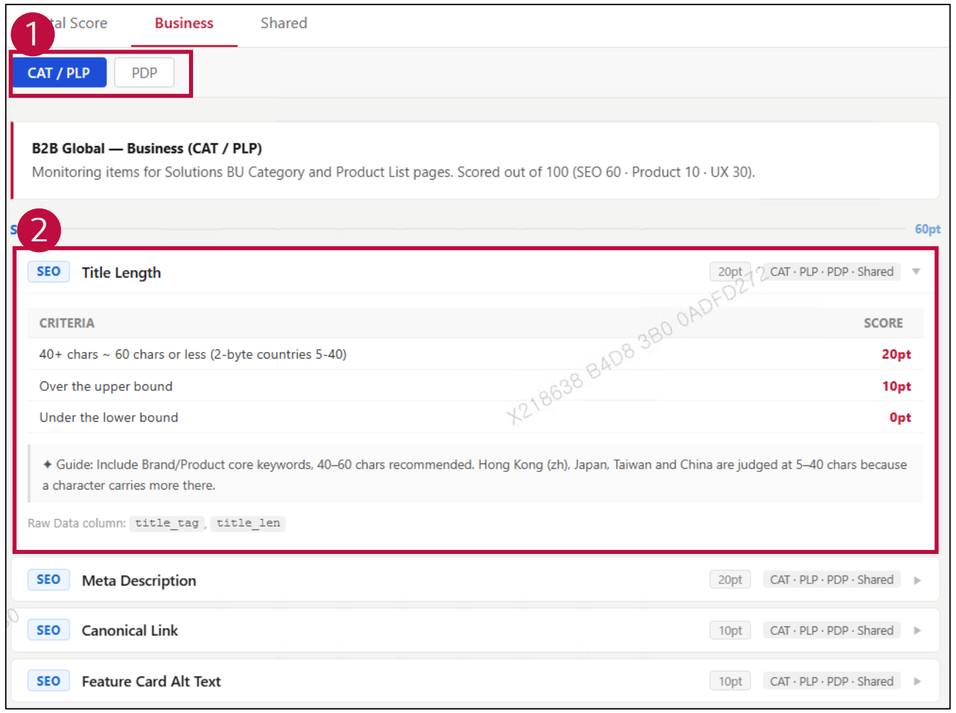

Check this section for items that the dashboard tracks without adding them to the total score.

3 Total Score

Each page type has a maximum score of 100 points. Only the scored items contribute to this total.

2. Dashboard Usage Guide

Dashboard Screen

Feature Guide

View the evaluation criteria and scores for each monitoring item.

1 Page Type

Select CAT/PLP or PDP to show the monitoring items for that page type.

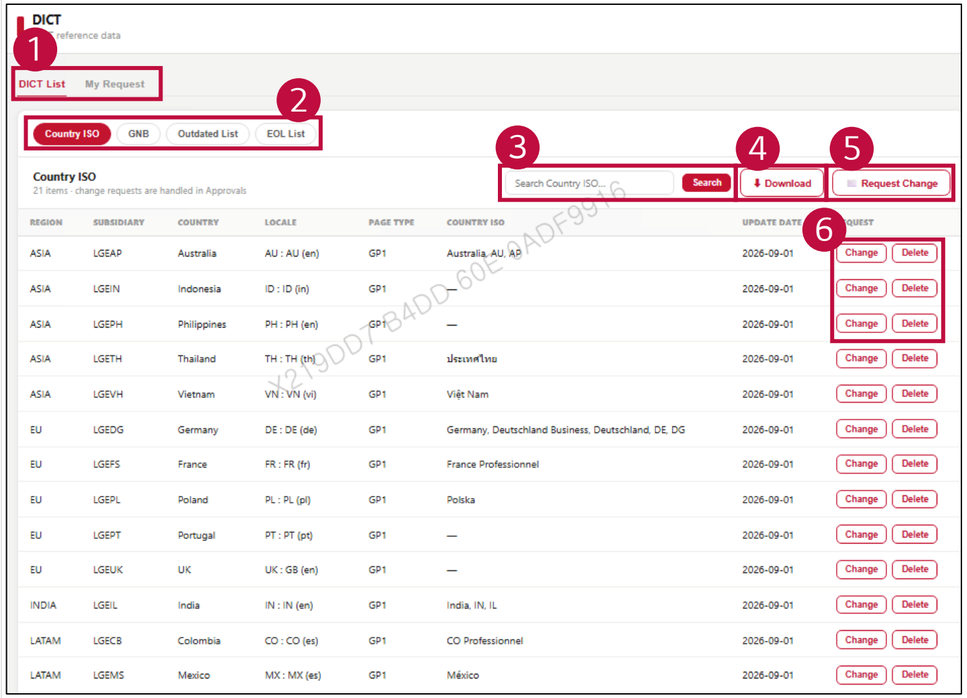

2 Item Details

Click an item's arrow to show its criteria and scores. Read the Guide and Raw Data field names for reference. Click it again to hide the details.

2. Dashboard Usage Guide

2.2 Components by Page > REFERENCE > DICT

Dashboard Screen

Feature Guide

View DICT reference data and submit requests to change or delete an entry.

1. **DICT List and My Requests**
   Click DICT List to view the reference data. Click My Request to check the requests you have submitted.

2. **DICT Type**
   Select Country ISO, GNB, Outdated List, or EOL List to view the corresponding reference data.

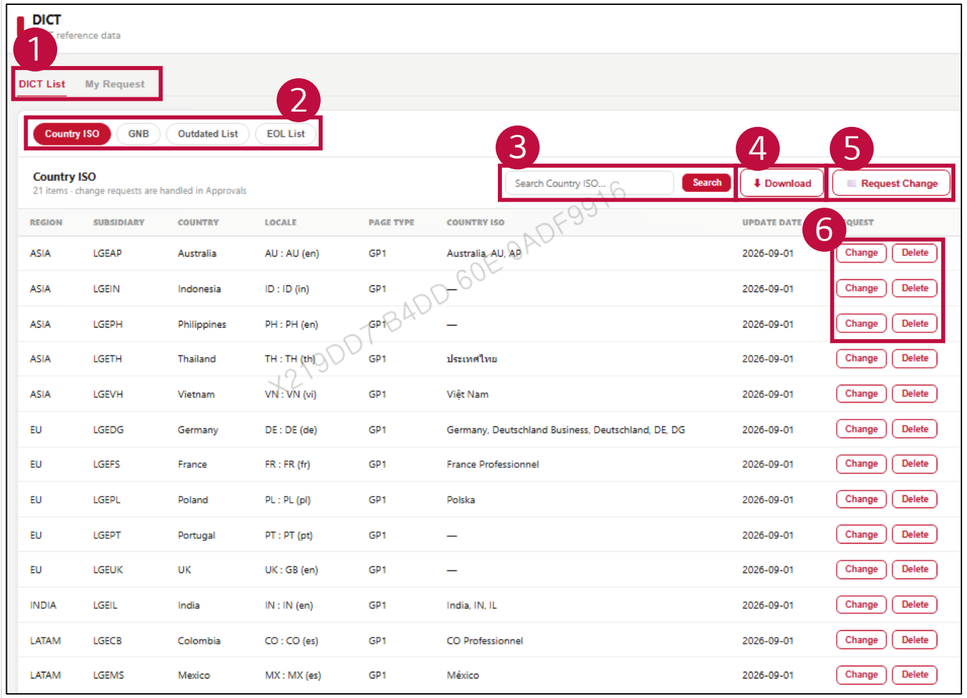

3. **Search**
   Type a keyword and click Search to find an entry.

4. **Download**
   Click Download to export the selected data as a CSV file.

2. Dashboard Usage Guide

2.2 Components by Page > REFERENCE > DICT

Dashboard Screen

Feature Guide

View DICT reference data and submit requests to change or delete an entry.

5 Request Change

Click Request Change to open the page for Add, Change, and Delete requests.

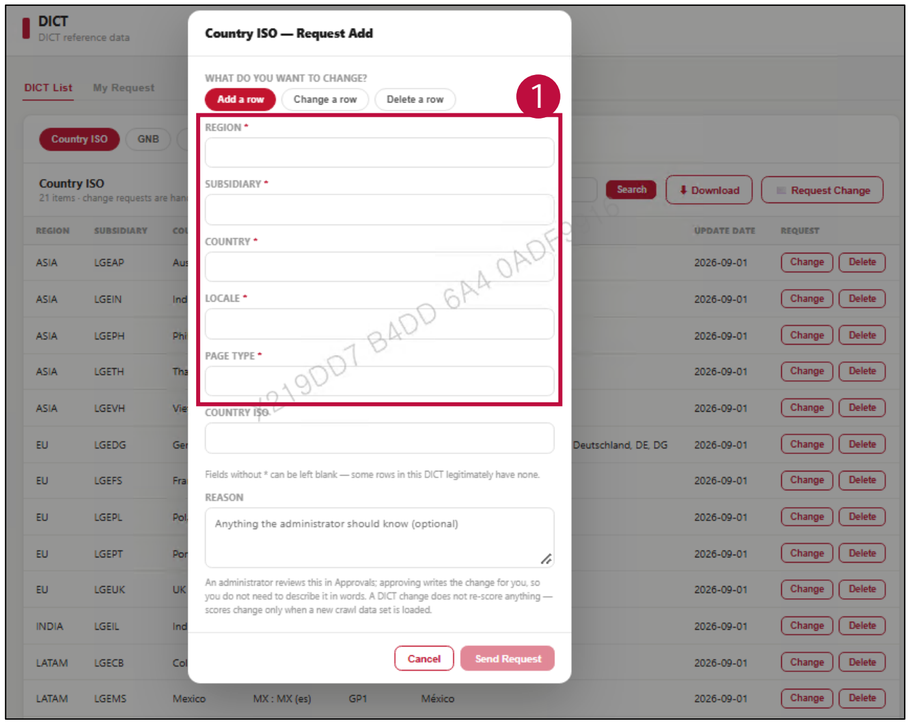

6 Change, Delete

Click Change or Delete to update or delete the corresponding entry.

2. Dashboard Usage Guide

2.2 Components by Page > REFERENCE > DICT

Dashboard Screen

Feature Guide

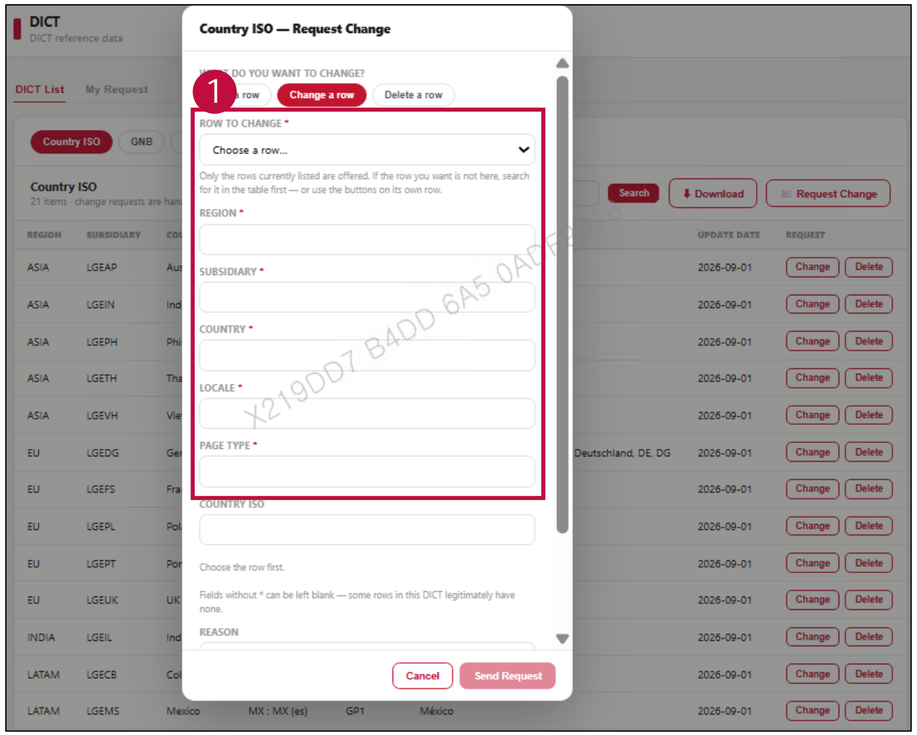

Click Request Change, then select Add a row to add a new row.

1. **Add a row**
   Type the required values for Region, Subsidiary, Country, Locale, and Page Type. Click Send Request to submit the request.

2. Dashboard Usage Guide

2.2 Components by Page > REFERENCE > DICT

Dashboard Screen

Feature Guide

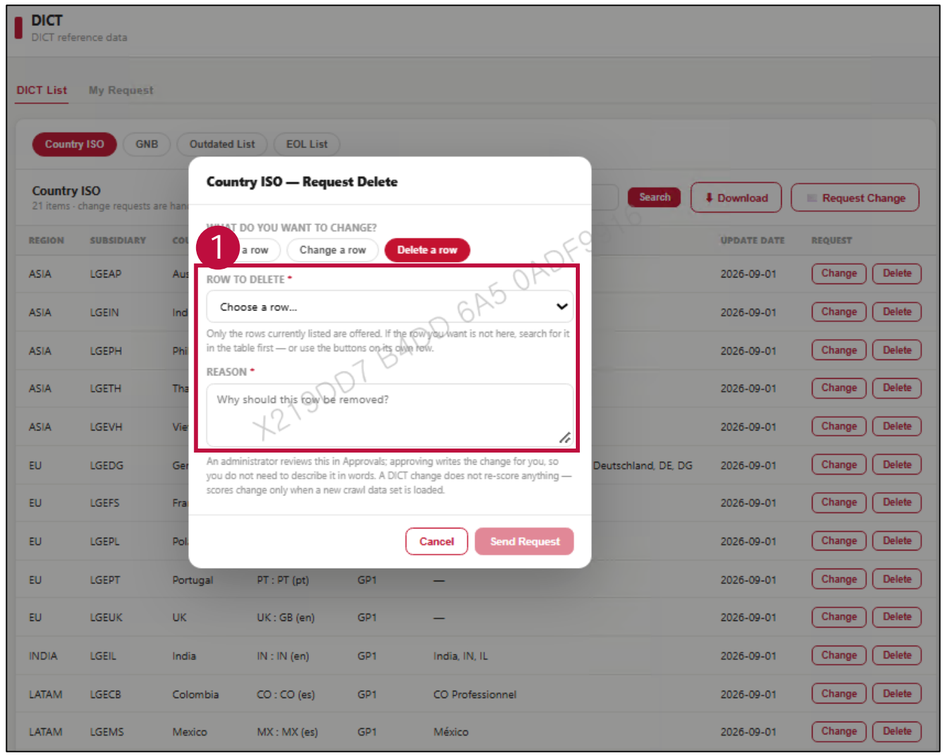

Click Request Change, then select Change a row to update an existing row.

1. **Change a row**
   Select Row to Change, then type the updated values for Region, Subsidiary, Country, Locale, and Page Type.

2. Dashboard Usage Guide

2.2 Components by Page > REFERENCE > DICT

Dashboard Screen

Feature Guide

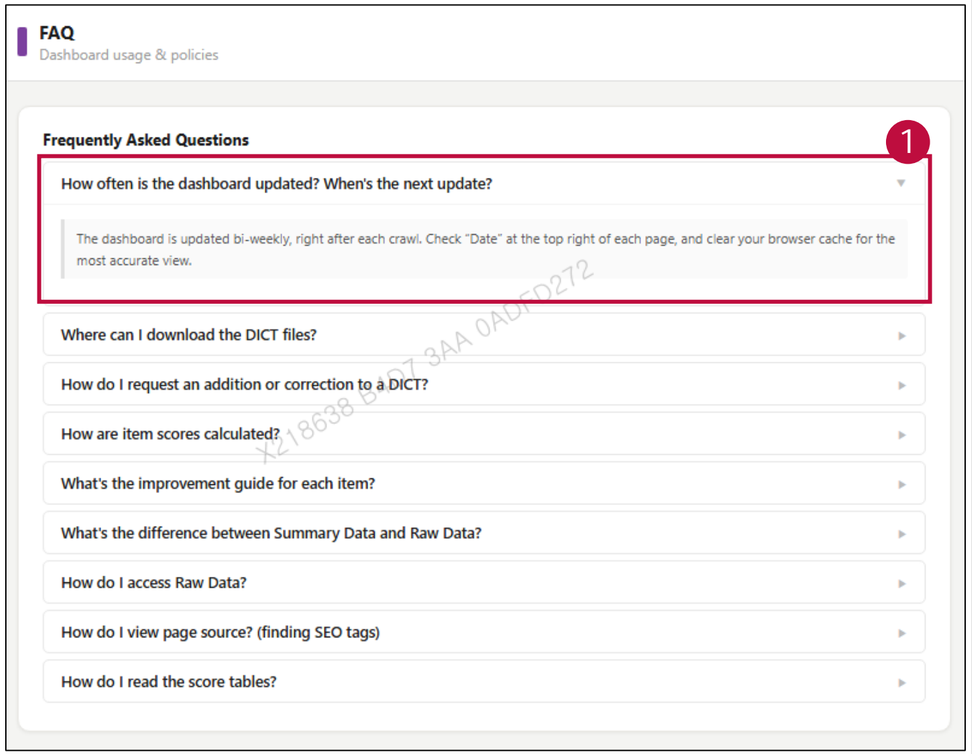

Click Request Change, then select Delete a row to delete an existing row.

1. **Delete a row**
   Select Row to Delete, type the reason in Reason, then click Send Request to submit the deletion request.

2. Dashboard Usage Guide

2.2 Components by Page > REFERENCE > FAQ

Dashboard Screen

Feature Guide

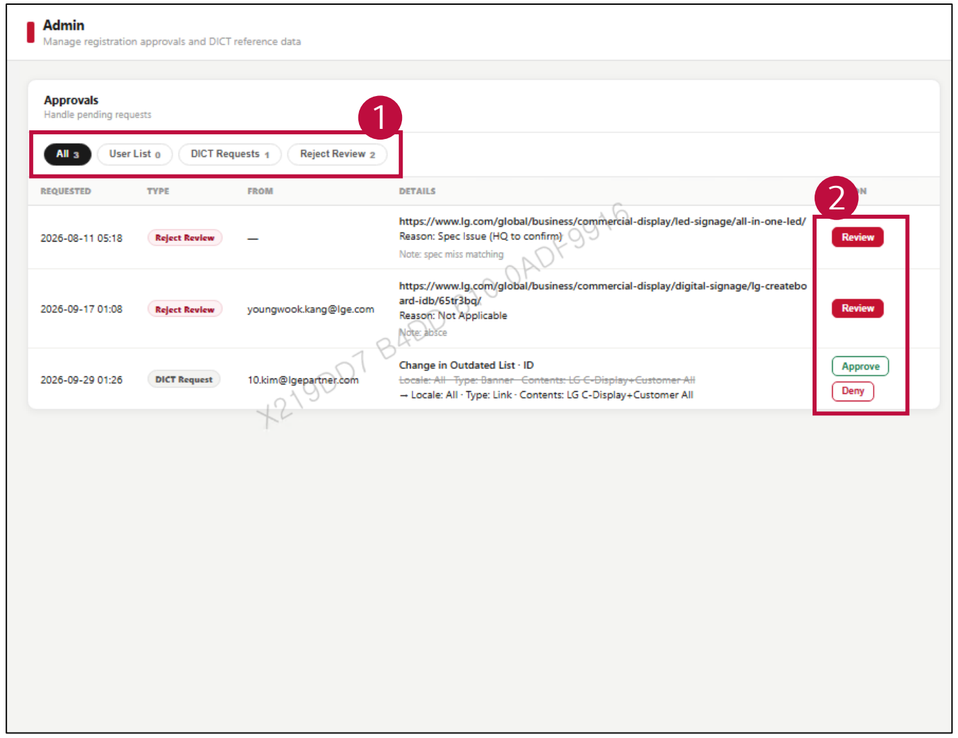

Find answers to common questions about dashboard usage and policies.

1. **Question and Answer**
   Click a question or its arrow to show the answer. Click it again to hide the answer.

2. Dashboard Usage Guide

2.2 Components by Page > ADMIN > Approvals

Dashboard Screen

Feature Guide

Review pending user registration, DICT, and rejection requests in one place.

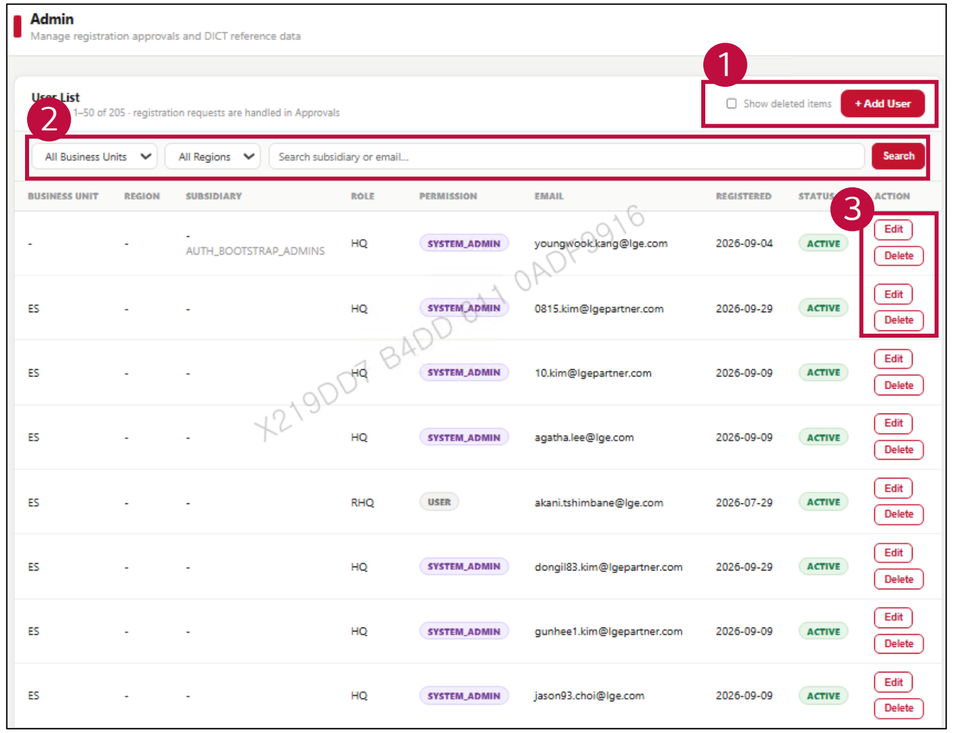

1. **Request Type**
   Select All or a request type to filter the list. The number beside each tab shows the pending request count.

2. **Review and Decision**
   Click Review to open a rejection request. For requests with decision buttons, click Approve to accept or Deny to reject the request.

2. Dashboard Usage Guide

2.2 Components by Page > ADMIN > User List

Dashboard Screen

Feature Guide

Find user accounts and check their assigned business unit, region, role, and permission.

1. **User Management**
   Click Add User to open the new user form. Select Show deleted items to include deleted accounts in the list.

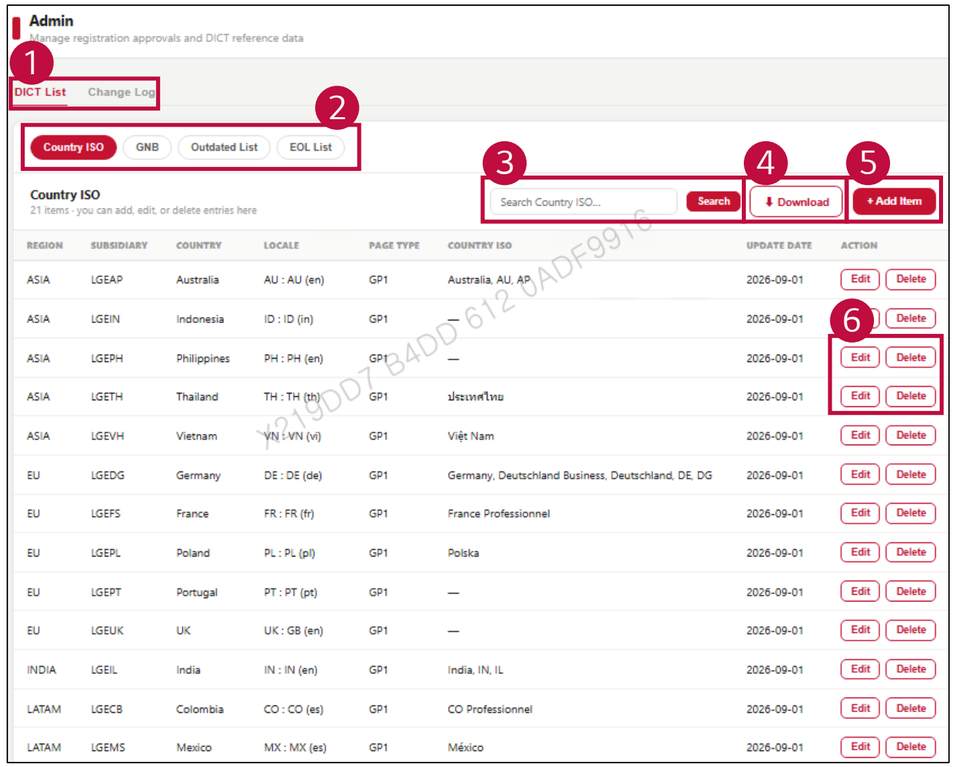

2. **Find Users**
   Select a business unit or region or type a subsidiary or email address. Click Search to show the matching accounts.

3. **Edit & Delete**
   Click Edit to update user information or Delete to delete the user account.

2. Dashboard Usage Guide

2.2 Components by Page > ADMIN > DICT Management

Dashboard Screen

Feature Guide

Manage DICT reference entries and view their change history in the admin view.

1. **DICT List and Change Log**
   Click DICT List to manage the current entries. Click Change Log to view past changes.

2. **DICT Type**
   Select Country ISO, GNB, Outdated List, or EOL List to manage that reference data.

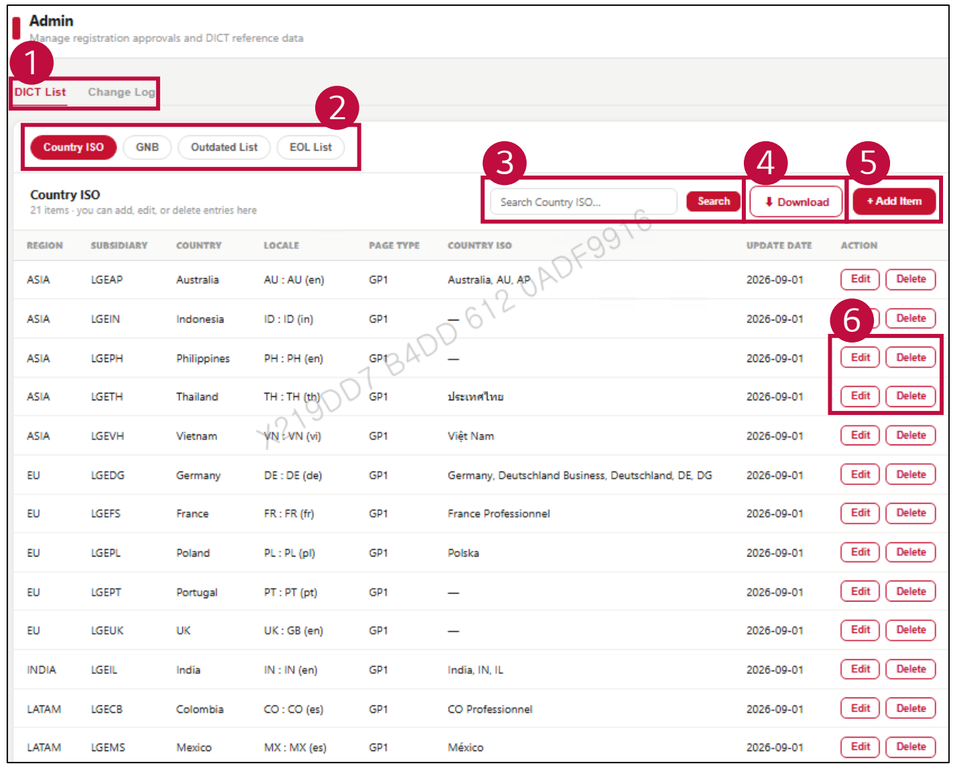

3. **Search**
   Type a keyword and click Search to find an entry.

4. **Download**
   Click Download to download the selected data as a CSV file.

2. Dashboard Usage Guide

2.2 Components by Page > ADMIN > DICT Management

Dashboard Screen

Feature Guide

Manage DICT reference entries and view their change history in the admin view.

5 **Add item**

Open DICT List to manage the current entries. Open Change Log to review past changes.

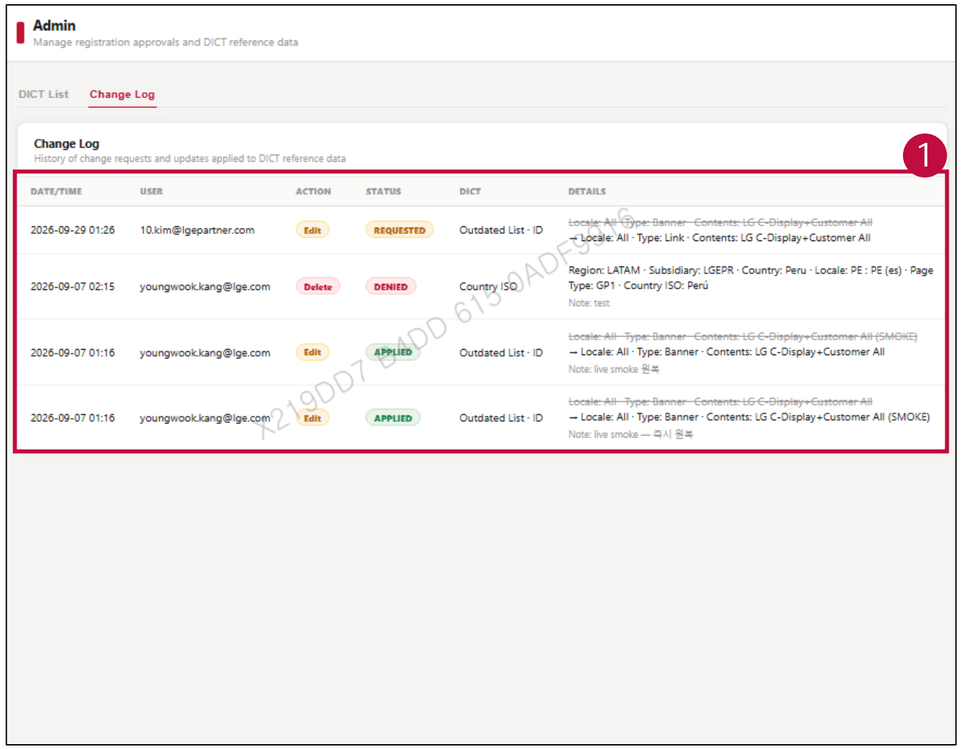

6 **Edit & Delete**

Click Edit or Delete to update or delete the corresponding entry.

2. Dashboard Usage Guide

2.2 Components by Page > ADMIN > DICT Management

Dashboard Screen

Feature Guide

Click Change Log to view DICT change requests and update history.

1 **Change Log**
View the DICT change history, including the date/time, user, action, status, and details.

Scoring Structure & Evaluation Rules

Monitoring criteria and points vary by page type. The scoring structure shows how each monitoring result contributes to the total score.

1 Page Type-Based Scoring

Select the page type to view its monitoring categories and scoring structure. Different criteria apply to CAT/PLP, PDP, Insight, and Industries/Support pages.

2 Score Calculation

Criteria with assigned points contribute to the total score. The dashboard calculates the score based on whether each criterion meets the defined condition.

3 Monitoring-Only Items

Items listed under Only Monitoring are tracked for status and issue detection but are excluded from the total score.

3. Standard and Schedule

3.1 Standard > Monitoring Categories & Coverage

Monitoring Criteria by Page Type

Business Unit	CAT/PLP	PDP
HVAC	✓	-
Commercial Display	✓	✓
Mobility	✓	-
Monitors & PCs	✓	✓
Compressor & Motor	✓	-
Smart Factory	✓	-
Commercial Laundry	✓	✓
Advanced Materials	✓	-

Business category

1. **CAT/PLP**
   Applied to all 8 Business Units.

2. **PDP**
   Applied to Commercial Display, Monitors & PCs, and Commercial Laundry.

Shared category

1. **Shared**
   - Industries
   - Insights
   - Support

* Monitoring coverage varies by business unit and page type.
Detailed scoring standards are provided on the dashboard.

3. Standard and Schedule

3.1 Standard > SEO Monitoring

Monitoring Items & Applicability

Detailed criteria are available in the dashboard.

Page applicability and maximum points for each monitoring item.

Monitoring Item	Check Description	CAT/PLP	PDP	Insights	Industries	Support
